

Mockup Review Notes

Creative Director: Clara Du

Designer: Gioia Wang

- I really like the title section of the second mockup as allows the reader to know what the website is about immediately
- In addition, the image gallery underneath the title looks more clean than the way images were organized in the first mockup
- The two mockups are similar in layout for the rest of the homepage, therefore, both pages are in similar level of difficulty in terms of coding
- Will depend on the designer's preference
- The navigation looks great but remember to remove any buttons that do not have any functionality
